## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In paragraph 1, on line 15, please add the following at the end of the paragraph:**

**–The application is also a divisional of U.S. Patent Application No. 10/282,116, filed 29 October, 2002, now United States Patent 6,659,634.--**

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. The applicant has now more accurately distinguished the instant claims from those inventions presented in previous rejections.
3. In particular, the applicant has more clearly indicated in instant claim 9 the use of a predetermined concentration of the oxidizing agent in the polishing slurry. The prior art differs in that the slurry already exists and oxidizing agents are added to form an equilibrium concentration. The instant claims differ in that the slurry does not exist prior to determining the required target concentration. Furthermore, the claim now requires

Art Unit: 1796

that the concentration of the oxidizing agent in slurry is less than the target concentration. The prior art does not contain or teach this limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).
